DUNS #809118883

Personal Data:

Birth: January 19, 1942, New York, NY USA
Health: Excellent

Education:

1957-1961 Morehouse College, Atlanta, GA — B.S. Mathematics (minor Chemistry), 1961
1961 Further studies (Mathematics), New Mexico Highlands University, Las Vegas, NM (summer 1961)
1961-1964 Stanford University, Stanford, CA — M.S. Mathematics, 1964; M.S. Computer Science
1966-1970 Stanford University, Stanford, CA — Ph.D. Education (Psychological Studies & Mathematical Models of Educational Processes [Educational Psychology]), 1973. Patrick Suppes, major advisor.
1976-1980 Further studies (Medicine), University of California, San Francisco, CA

Academic and Teaching Experience:

1967-1970 Research Assistant. Institute for Mathematical Studies in the Social Sciences, Stanford University, Stanford, CA. Provided technical support for the IBM 1500 Instructional System used to teach mathematics and reading. Also developed heuristic computer-based system for teaching mathematical logic and set theory to elementary school students and Stanford University undergraduate students.

1970-1975 Assistant Professors (Psychology and Education). Departments of Psychology and Education. University of California, Santa Barbara. Taught upper division and graduate level courses in psychology and education (including statistics, methodology, memory and cognition, problem-solving, and mathematical and heuristic models), and interdisciplinary courses in computer sciences and social sciences. Thesis supervisor for approximately ten students awarded the masters or doctorate degrees, as well as several undergraduate students' honors theses.

1974 Faculty Fellow. NASA-Ames and Stanford University Summer Faculty Workshop. Developed models of engineering education and logistic reasoning for lifelong learning.

1974-1975 Visiting Assistant Professor (sabbatical). Department of Psychology, Carnegie-Mellon University, Pittsburgh, PA.

1981-1982 Visiting Scholar. Institute for Mathematical Studies in the Social Sciences, Stanford University, Stanford, CA. Developed mathematical and heuristic models of the molecular basis of aging and of evolutionary, developmental, immune, and cognitive memory. Also showed that a "gay-related immune deficiency" syndrome (now known as AIDS) was most probably caused by a "slow virus" consistent with an "immune dementia" postulated in a 1979 presentation.

1982-1983 Miscellaneous Professional. School of Medicine, Stanford University, Stanford, CA. Developed laboratory skills in clinical immunology and demonstrated that the probable cause of Kaposi's Sarcoma is the Epstein-Barr virus or its transmissible secondary particles ("autovirions").

1982-1983 Visiting Scholar. School of Education, Stanford University, Stanford, CA. Co-taught (with Robert Textor) courses on technological futures and anticipatory anthropology especially emphasizing the microelectronics and biotechnology revolutions.

1985-1987 Manager, Math. Lab. Cherry Chase School, Sunnyvale, CA. Supervised 3 teachers in math lab and taught math to selected students (in grades 1 through 6) based on remedial and enrichment needs.

1987-1989 Visiting Scholar. Department of Anthropology, Stanford University, Stanford, CA. Guest lecturer in Robert Textor's courses on technological futures and anticipatory anthropology. Also developed mathematical and heuristic models of AIDS, its onset and evolution, with general emphasis on anticipating its long-term future course and broader implications for evolution.

1993-1998 Adjunct Faculty. Rosebridge Graduate School of Integrative Psychology, Concord, CA.

1995 Visiting Scholar. Center for the Study of Language and Information (CSLI), Stanford University, Stanford, CA. Studies of "Commonsense."

1996-2001 Adjunct Research Faculty. Institute of Transpersonal Psychology, Palo Alto, CA.

1997-1999 Psychometrist & Assistant Director. Testing & Evaluation Dept., San José State Univ., San José, CA.

1998-1999 Professor (by courtesy). Department of Psychology, San José State University, San José, CA.

- 1999-2003 Testing Officer, Testing Office, California State University – Dominguez Hills, Carson, CA.
 2002-2005 Associate Professor – Psychology, Institute of Transpersonal Psychology, Palo Alto, CA.
 2005-present Adjunct Research Faculty, Institute of Transpersonal Psychology, Palo Alto, CA

Other Professional Experience:

- 1965-1966 Associate Programmer, Advanced Systems Development Division, IBM Corporation, Los Gatos, CA. Developed user-interface command language for the IBM 1500 Instructional System.
 1970-1983 Founding Executive Editor, *Instructional Science*, Elsevier Publishing Company, Amsterdam, The Netherlands.
 1970-1973 Senior Staff Advisor, Computer Center, University of California, Santa Barbara, CA. Liaison staff member between computer center staff and social science faculty providing consultations on statistical computations and heuristic programming.
 1973-1975 Acting Assistant Director, Bureau of Educational Research and Development, School of Education, University of California, Santa Barbara, CA.
 1973 Civilian Research Scientist (summer), U.S. Naval Missile Center, Point Mugu, CA.
 1974-present President, Humanized Technologies, Inc., Palo Alto, CA.
 1975-1977 Professional Staff, Far West Lab. for Educational Research and Develop., San Francisco, CA. Worked on the development of a portable software interface for recording and analyzing classroom observations of teachers and students to ultimately determine the effects of instant feedback on teacher performance.
 1978-1983 Founding Associate Editor, *Health Policy and Education* (aka: *Health Policy*), Elsevier Publishing Company, Amsterdam, The Netherlands.
 1986-present Director, Institute for Postgraduate Interdisciplinary Studies, Palo Alto, CA.

Awards, Honors and Distinctions:

- Early admission to college from 10th grade with scholarships, 1957-1961.
 Graduate research assistant, New Mexico Highlands University, Las Vegas, NM, 1961.
 Graduate research assistant, Stanford University, Stanford, CA, 1966-1970.
 Editorships of *Instructional Science* and *Health Policy and Education (Health Policy)*, 1970-1983.
 NASA-Ames Summer Faculty Fellow, 1974.
 Chairman, Refereeing Policy Committee, Second International Conference of Scientific Editors (Amsterdam), 1980.
 U. S. Patent (with M. Briggs) for 'Convertible Garment Bag with Alternate Carrying Means' (i.e., Backpack), 1990.
 Grant from the Bess Spiva Timmons Foundation to study Huntington's Disease, 1992.
 Nominator, Christopher Columbus Foundation \$100,000 Award Finalist, 1998.
 Honorary Coach, San José State University, October 31, 1998.
 Nominee, Global Health Council 2000 "Jonathan Mann Award" [Nominated by Prof. A. Löve, Chair-Med. Virol., Univ. Iceland]
 Invited Advisor to Médecins Sans Frontières/Doctors Without Borders (MSF) and the Drugs for Neglected Diseases (DND) Working Group regarding "The Crisis of Neglected Diseases: Developing Treatments and Ensuring Access," March 2002.

Professional Affiliations (past or present):

- AIDS and Anthropology Research Group (AARG)
 American Association for the Advancement of Science (AAAS)
 American Educational Research Association (AERA)
 American Psychology Association (APA)
 American Public Health Association (APHA)
 Bay Area Black Coalition Against AIDS (BABCA)
 New York Academy of Sciences (NYAS)

Past and/or Present Biographical References:

- Who's Who in America
 Who's Who in American Education
 Who's Who in Black America
 Who's Who in the West
 Who's Who of Emerging Leaders in America
 Who's Who of American Inventors
 Who's Who in the World
 Dictionary of International Biography
 Men of Achievement
 Strathmore's Who's Who

Community Service:

- Advisor, Mental Health Advisory Committee, San Francisco Head Start, 1978-1991.
President, Concerned Black Parents (Henry Gunn Senior High School, Palo Alto, CA), 1980-1983.
Advisor, MESA (Mathematics-Engineering- Science Achievement) Program, Henry Gunn High School, 1981-1984.
Substitute Teacher, Ravenswood City School District, East Palo Alto, 1987-1989.
Board Member, Gatekeepers to the Future, San Rafael, CA, 1991-1994.
Board Member, American Medical and Educational Services in Africa (AMES), Los Angeles, CA, 1994-1999.
Coordinator, 7 "Gatekeepers to the Future 'Future Intensives'" Elderhostels, Mt. Alverno, Redwood City, CA, 1992-1993.
Coordinator, 8 "Center for Studies of the Future" Elderhostels, Ventura, CA, 1996-2003.
Referee, Various scientific journals, 1980-present.
Mentor, Project AFFIRM, Evergreen Valley Community College, 1996-1998.

Numerous lectures in elementary and secondary schools and Elderhostels about the value of education and public health.

Professional Committee Assignments:

Writing Requirements Committee, San José State University – 1997-1999.
Evaluation-Assessment-Review Committee, San José State University – 1997-1999.
Staff Development Committee (Retirement), San José State University – 1998.
Session Chairperson (Int'l Research Panel) HCV Global Foundation 2nd International HCV Conference — 1998.
Session Chairperson (Research on HCV) HCV Global Foundation 2nd International HCV Conference — 1998.
Session Chairperson (Future HCV Research) HCV Global Foundation 2nd International HCV Conference — 1998.
Graduation Writing Requirement Committee, California State University-Dominguez Hills – 2000-2003.
Reviews of Doctoral Qualifying Papers, Institute of Transpersonal Psychology, Palo Alto – 2002-2004.
Ethics Review Committee, Institute of Transpersonal Psychology, Palo Alto – Summer 2003.

Consultantships and Other Professional Activities:

Institute of the Future, Menlo Park, CA, 1970.
Xerox Palo Alto Research Center, Palo Alto, CA, 1970.
International Academy, Santa Barbara, CA, 1971-1973.
Inst. for Human Potential Psychology, Palo Alto, CA, 1971-1974.
Systems Sciences Division, The RAND Corporation, Santa Monica, CA, 1970-1974.
Value Engineering Corporation, Alexandria VA, 1974-1975.
Foundation for the Advancement of Multimedia Art, Santa Barbara, CA, 1976-1979.
International Instructional Technology Quarterly, 1984-1987.
Market Intelligence Research Company, Mountain View, CA, 1987-1988.
Elderhostels and Gatekeepers to the Future, San Rafael, CA, 1990-1994.
American College of Testing, Iowa City, IA, 1992-2003.
Center for Studies of the Future, Ventura, CA, 1993-2004.
Charles R. Drew Center for AIDS Research, Education, and Services (Drew CARES), and Social and Behavioral Research Core Group, Los Angeles CA, 2000-2004

Dissertation Advisor or Supervisor for Approximately 106 Students

Summary of Unpublished Reports and Presentations (complete list available upon request)

Autotoxicity, autovirulence and context-specificity	approximately 10
Computer-assisted instruction (CAI) and computers in education	approximately 17
Commonsense and disorders of common sense	approximately 30
EBV and adenoviruses	approximately 8
Autism, schizophrenia, amyotrophic lateral sclerosis, Tourette's syndrome et al.	approximately 10
Adultery, "kidultery," and logistic reasoning	approximately 15
Models of long-term memory in living systems, and especially the role of nurture	approximately 50
Help for the unknowingly needy (HFUN) and worried well (HFWW)	approximately 28
Transmissible negativism (TN), passive-aggression and psychoviruses	approximately 18
Acquired immunodeficiency syndrome (AIDS), HIV, prions, and slow viruses	approximately 85
Browsing and question-asking	approximately 15
Futures	approximately 15
Evolution, and evolution of God and spirituality	approximately 25
PRotonic-ELectronic-IOnic-PHotonIC MOLECULAR calcuLATOR (preliophic molecuator)	approximately 15
Nature versus Nurture	approximately 20

[Note: Some of these reports and presentations may overlap others (e.g., AIDS, TN and commonsense).]

Chronological Listing of Unpublished Reports and/or Presentations

Smith, R. W. (1968). Memory, Testing, and Models of Memory and Testing.

Smith, R. W. (1969). EMILE — An Extensible Meta-Instructional Language.

Smith, R. W. (1970). Compilers with Common Sense. Lectures at the University of California, Santa Barbara.

Smith, R. W. (1970). Computer Simulation of the Teaching Process. Presented to the 8th International Symposium on Programmed Instruction and Teaching Machines [Gesellschaft für Programmierte Instruktion (GPI)] & the Meeting of the 10th DIDACTA [Basel, SWITZERLAND — May].

Smith, R. W. (1970). Problems and Prospects for Computer-Assisted Instruction. Presented to the Working Group on Cybernetics (Ag KYB), Gesellschaft für Programmierte Instruktion (GPI) [Basel, SWITZERLAND — May].

Smith, R. W. (1970). A CAI System for Axiomatic Problem Solving and Its Generalization to the Natural and Social Sciences. Presented to the Departments of Genetics and Education, University of Freiburg [Freiburg, WEST GERMANY — September].

Smith, R. W. (1970). Testing for Unsolvability: Implications for the Von Restorff Effect.

- Smith, R. W. (1970). Computer-Assisted 'Helps', 'Hints', and Other 'Over the Shoulder' Phenomena: Discovering What's Relevant in Intelligent Instructional Systems.
- Smith, R. W. (1971). Compilers with Common Sense. Submitted to the International Federation for Information Processing (IFIP) Congress 71 [Ljubljana, YUGOSLAVIA — August 23-28].
- Smith, R. W. (with R. Reynolds) (1972). Teaching Children Chess: A Model of Dynamics in Learning and Instruction.
- Smith, R. W. (1972). Counseling the Creatively Adulterous: An Application of General Systems Theory to Clinical and Counseling Psychology.
- Smith, R. W. (1973). Adultery — A Model of Human Logistic Human Information Processing: Applications of 'Time-Sharing' and Juggling in Cognitive Information Processing.
- Smith, R. W. (1974). Inferring Differences in Male and Female Cognitive Styles from Restroom Graffiti: A Study of Cognitive Aspects of Sexual Liberation.
- Smith, R. W. (1974). The Computer in American Education.
